

Our Lady of the Snows Catholic Academy Features Update February 2008

Science Lab

The school will be equipped with a Science Lab, built to high school standards. It will be located on the second floor in the junior and senior high area. The lab will have room for up to 30 students in a classroom setting, with the lab benches and equipment in the same room adjacent to the desks. Students will be allowed to move quickly from direct teaching to experimentation in this joint use room.

Art and New Media

The Art and New Media Suite will allow us to have cutting edge program, offering the students a choice of traditional art or New Media. New Media is a course that essentially is about communication through various medium including the following:

- Animation
- Video Editing
- Digital Photography
- Desktop Publishing
- Silk Screening
- Embroidery
- Sign Design

Our Lady of the Snows Catholic Academy New Construction Update February 2008

Please accept this as the fourth installment of my monthly updates on the construction of our new school. As I noted in the last update, our expected completion date remains at **December of 2008**, with a move in date to follow shortly thereafter.

A recent photo of the site is shown below.

Here are some updates on the status of the project:

- Interior masonry continues.
- Glulam beams installation is complete except for stairways.
- Precast concrete is complete.
- Exterior wall and sheathing is nearing completion.
- Metal roof decking is 98% complete.
- Window and exterior wall weatherproofing in progress.
- Roof parapets and rough carpentry in progress.
- Roofing has begun.
- Mechanical, electrical and fire protection rough in is in progress.

Sincerely,
Michael W. O'Brien
Deputy Superintendent
Christ the Redeemer Catholic Schools
